"EYES IN THE BACK OF HIS HEAD."

Oliver Wendell Holmes, Bates Gridley, credited with having eyes in the back of his head, because he saw things behind as well as in front. This was all due to his extremely large, old fashioned, round spectacles which, in which objects behind him were plainly reflected. Proper glasses on defective eyes of the present day would enable their possessors to see many things with perfect ease that now seem dim and indistinct. Those who have never availed themselves of glass spectacles "miracles," others who accept the aid in a timely manner call them "miracles."

—Call them what you please—
—My glasses give you ease.

It isn't the material
that goes into your
repairs that counts
it's the perfect
job, it is the know how

That does the business, any bungler can buy the fine kinds of material that I use in repairing; but skill is the most valuable material that can be used in watch repairing; and the bungler can't buy it. I sell my skill for what it is worth and it will cost you less than bungling at lower prices.

After very hot weather last week we were favored with a heavy rain on Sunday night, precipitation two inches, thoroughly soaking the ground; the corn has responded and is on a boom; pastures revived and the farmers' hopes as well, things looked fine but it now seems a fair crop of corn.

A Fire At Callaway.

Roy Welch of Callaway had the misfortune Monday night of having his store burned. It was not half an hour after he had left the store that the building was discovered on fire. The origin of the fire is not known but is supposed to have been from the explosion of a lamp. The value of the goods and building is estimated worth \$10,000, insurance \$4000. It was by hard work that other buildings in close proximity were saved.

S. Neth of Union Valley reports the quality of wheat in his vicinity better than last year, and the condition of corn excellent. He made a trip Saturday south west beyond Callaway and reports that in the round trip he only saw one field of corn that was badly damaged by the dry weather. He thinks that the rain Monday night insures an average crop of corn in the county and that another such rain in a week or ten days will still increase the yield.

J. H. Edmisten chairman of the fusion state central committee made this office a friendly call Tuesday. As he did inform us what his mission to Custer county is at this time we can only conjecture that a bad condition of the fusion fences is alone responsible for his hurried visit so soon after the pop state convention. It is asserted however that Bryan's barrell is not large enough to buy off the mid road leaders. Time will tell.

The Saving of Money

by the use of Royal

Baking Powder is considerable. Royal is economical, because it possesses more leavening power and goes further.

Royal saves also because it always makes fine, light, sweet food; never wastes good flour; butter and eggs.

More important still is the saving in health. Royal Baking Powder adds anti-dyspeptic qualities to the food.

There is no baking powder so economical in practical use, no matter how little others may cost, as the Royal

Imitation baking powders almost invariably contain alum. Alum makes the food unwholesome.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

The Populist State Convention.

On schedule time as per call the mid-road populists met in Grand Island last Friday to register their opposition to fusion and to save their party from being sold out bodily to democracy. The attendance was highly flattering to the leaders as well as a just rebuke to those who had sold them out to the democrats.

Custer county was represented by a number of delegates and the county received due recognition by the convention.

Our respected townsman, Taylor Flick received the nomination for governor by acclamation and Jas. H. Stockham was selected as one of the presidential electors. J. G. Painter was made secretary of the convention. The convention endorsed Barker and Donnelly's nominations for president and vice-president and the Omaha platform. There were about 400 delegates present. They adopted the name populist as their party name.

The Ansley Robbers Caught.

Wednesday morning about 2 o'clock the safe in Mrs. B. J. Tierney's drug store at Ansley was broken into and relieved of \$275 or \$300. Not being molested the robbers entered the business place of Sheppard evidently intending to go through his safe. Dr. Young who happened to be on the street at the time saw a lighted match in Sheppard's place and proceeded at once to give the alarm. B. J. Tierney on being told robbers were in the town went into the drug store and found that his wife's safe had been broken into and the money was gone. The robbers learning they had been discovered made their escape. Sheriff Armstrong was telephoned and by 5 o'clock he was on his way to Ansley. It was 9 o'clock before he found their trail south of Mason. About 4 o'clock in the afternoon he captured them in Buffalo county and fired an extra team to bring the fugitives to Broken Bow. He reached here about 6 o'clock this morning and they are now safely lodged. He secured from them \$220, and a half dozen skeleton keys and a file. The men when found were a sleep and no weapons but a pocket knife and razor.

The Misses Denlow, May and Nina, of Dodge county, Nebraska, nieces of Mr. and Mrs. A. Y. Sutton of this city, who have been guests of their uncle's family the past three weeks left Broken Bow for their home on the Wednesday morning train. The young ladies were delighted with the country and its people and made many friends during their stay in the city, all of whom regret their departure.

The New Stars.

We called on S. B. Thompson, manager of the Thompson, Rublee, Stevens Co. store, this morning who are putting a new store in this place. Owing to the immense stock they are putting upon their shelves they were unable to open their store on the 22nd as advertised last week, but will have everything in readiness by August first. They are putting in a large stock of new and fresh groceries in connection with their dry goods. They will have a complete, large and new stock of boots and shoes and notions of all kinds.
